

## **Sphere LLC**

### Description:

Sphere specializes in helping clients protect their critical IT equipment by designing and implementing back-up power solutions. Sphere's value includes a current assessment of the existing equipment, understanding current and future requirements, designing an optimal solution based on these requirements, and creating an implementation strategy to install and test new solutions.

Sphere provides its clients more than just a product or service. Through extensive experience, expertise and available tools, our team will provide power management and facility solutions to our clients. These turnkey solutions are intended to allow our clients to focus on their core business. Our team will provide solution development for all aspects of the power management process to include:

- \* Server Room Design and Implementation
- \* Equipment Upgrade and Augment
- \* Energy Efficiency Implementation
- \* Power Management Programs
