

A2Z Commercial Cleaning & Equipment Repair

Description:

L. Hars-A2Z is the dream of Larry Hars who was born and raised in Florida. He brings 39 years of experience cleaning and repairing equipment. He has specialized in white glove inspections and worked with restaurants and their health department inspections. During his years of working in this industry, Larry found that 85% of the mechanical problems of equipment were a direct result of greasy buildup. In order to repair the problems, he had to clean it first. Thus our motto came to be, "If it's dirty - we clean it; if it's broken - we fix it." ...
